

Mission:

Our Mission is to enable all welfare students to create a bridge from the past through to the present and into the future.

Vision:

Our vision is to be recognised as a community network; to share and inspire those on the journey in the welfare services.

To be the best community workers that we can be and to give the best service we can to those in need.

About C.O.W.S

C.O.W.S Community Of Welfare Students was created by a group of students that were working on an assignment for the Diploma Of Community Welfare. C.O.W.S Community Of Welfare Students is a **facebook** page for students past and present who have studied in the Community Welfare / Human Services field. We will email invitations, to previous and present students from Community Welfare, to join our **facebook** community as "fans". We will ask "fans" to email their friends in the Community Welfare / Human Services community to join us. We will encourage fans to share their study, vocational placement and work experience. What is your story, what have you achieved?.

We hope that C.O.W.S fans will be able to give current students guidance on how we can accomplish our professional goals. We hope that new students of welfare work will continue with our **facebook** group to help others in the future.

We will be able to measure our success by how many hits we have on our **facebook** site.

Objective:

Our objective is to share present experiences and collaborate on new ideas as an ONLINE PEER SUPPORT GROUP for students and workers in the Community Welfare / Human Services field.

Values:

C.O.W.S Community of Welfare Students is committed to:

- Working towards keeping in touch with past and present students of the Diploma Of Community Welfare and other welfare courses
- Creating a welcoming online community for discussion and sharing relating to Community Welfare work
- To enable Community Welfare workers to mentor and encourage each other
- Respecting the different cultural beliefs and values of people and organisations.
